

Project information

New construction of daycare facility for children and rooms for outreach work with young people at Bernsteinstraße, Stuttgart-Heumaden

Project description

Due to the need to extend daycare facilities in the Heumaden / Sillenbuch region, a new facility was built at Bernsteinstraße. Across the street from the former facility, which is going to be removed to create space for some 100 new apartments, a daycare facility is under construction. This facility will have 90 places for three groups of children aged 0 to 3 and 3 to 6. The construction project will also include rooms for outreach work with young people.

Customer:	Public works service, Stuttgart
Start of construction:	October 2012
Scheduled completion date:	March 2013
Order volume:	approx. 126,000 Euros (dry construction work)

Dry construction work has been performed by **Bohle Innenausbau GmbH & Co. KG, Stuttgart.**

Scope of the order:

- 420 m² outside walls with drywall plates on a wooden substructure of 30 X 50 mm
- 400 m² inside walls with drywall plates on a wooden substructure of 24 X 48 mm
- 1,100 m² inside walls with drywall plates directly installed onto OSB panels
- 520 m undercut plinth
- 500 m flexible ceiling joints
- 250 m² drywall ceilings
- 340 m². perforated drywall ceilings
